SUBJECT No. 434.

Garden lands within Municipal limits.

Mr. K. V. Nanjunda Setti, Seringapatam Municipality.

Summary of discussion.—As the *karanji* was the source of water-supply to all garden lands in the Fort, these lands were assessed at garden rate. But as the *karanji* has of late been left without necessary repairs, there is no means of irrigating the garden lands, although garden rate is still being levied on them. It is prayed that either the *karanji* be restored or only dry assessment levied on garden lands. The *karanji*, if repaired, will also feed most of the wells in the town, which dry up owing to failure of seasonal rains.

Reply of Government.—An application in the matter may be made to the Deputy Commissioner.
